Great! I'll try to find him and introduce myself. Thanks for sending this. I'll ask if he is going to be their guy on Delta Outflow too!

Subject: BDCP EIR/EIS lead agency meeting

All,
The BDCP EIR/EIS lead agencies will be discussing modeling assumptions and outputs for the water operations alternatives currently under consideration at a meeting on Tuesday, June 21, 2011. Presentations will be provided by the DWR modelers and consultants regarding Alternative 4 (the Enhanced Aquatic Conservation Alternative) and the SWRCB's request for an alternative with increased Delta outflow. We will also likely discuss the modified water operations (Scenario 6) and potential operations for a 3,000 cfs alternative. If you or your staff are available,

please take this opportunity to become more familiar with potential water operations modeling for the BDCP EIR/EIS alternatives.

Date: Tuesday, June 21, 2001

Time: 1:00-3:00pm

Location: Bonderson Building, Room 422
